GCE A and AS LEVEL

GCE Geography from 2016 Course planner (AS and A Level co-teaching)

GCE Geography from 2016 Course planner (AS and A Level co-teaching)

The following planner has been constructed based on the A Level Geography Specification being delivered to candidates over 4 one hour lessons per week by **TWO TEACHERS** teaching 2 lessons each per week. This planner is also based on the co-teaching of **BOTH AS and A LEVEL** candidates in the same class in the first year.

This is a guide and allows teachers to add detail from the Specification regarding when they deliver the content based on their own individual centre circumstances and the prior knowledge, understanding and skills of their candidates. It should be used in conjunction with the <u>Specification</u>. In addition, the <u>Teacher Guidance Notes</u> provide more detail regarding amplification of content linked to each focus area in the specification, along with possible teaching ideas, resources and ideas for embedding geographical skills. Each theme is broken down into a series of focus boxes, which divides the content into convenient units of study, however there is no requirement to spend an equal amount of teaching time on each focus box as the amount of teaching time required for each focus box will vary. Teachers may decide to approach the delivery of the content by following the focus boxes step-by-step or by covering multiple focus boxes through a case study approach.

W/C	Week	Component (A Level)	Focus area Teacher A	Content for delivery	Focus area Teacher B	Content for delivery	Additional notes
5 Sept	Week 1	1
