2. When all 25 questions have been read out, the question master will read out the answers.
3. Mark your answers by putting a nought, 'O', over the correct answer and a cross, 'X', over the incorrect answers.
4. The first team to claim an unbroken line of noughts, 'O's from either top to bottom, left to right, or diagonally corner to corner, is the winner.
5. When all the answers have been read out, if no one has an unbroken straight line, then the winner is the team with the most correct answers.
